Deposits and Tuition are Non-Refundable

When parents or guardians register at Infinity School, they are committing to a contract agreement to pay for the full year of tuition. The only exception to this agreement is if a learner exits the program due to contract violations on their part. If this happens, a pro-rated tuition amount is refunded based on the exit date.

If our tuition is out of reach for your family, you may contact us to see what we are able to accommodate, while still being able to maintain our programme.
